## FUIB supports Ukraine's national team at the Invictus Games 2025

Ukraine is gearing up for a major event as its national team embarks on the Invictus Games 2025, set to take place in Vancouver and Whistler, Canada. To mark their departure, a farewell ceremony was held at Kyiv Central Railway Station, bringing together supporters to send them off. FUIB is the title sponsor of Ukraine's team of military personnel and war veterans, supporting their preparation and participation in the Invictus Games Vancouver Whistler 2025.

This event was a significant milestone in supporting Ukrainian veterans and advancing adaptive sports in Ukraine. Alongside the athletes' families and friends, representatives from government agencies, the media, and partners gathered to show their support before the team's journey to Canada. The atmosphere at the station was warm, heartfelt, and truly inspiring.

A standout moment of the event was the unveiling of the new official uniform for Ukraine's national team, designed by the creative agency Brendari. The design seamlessly blends aesthetic appeal with deep symbolism, reflecting the resilience and strength of the Ukrainian people.

With the Invictus Games 2025 just around the corner, FUIB, together with its partners, continues to champion adaptive sports in Ukraine and support the national team on their path to victory. Let's cheer on our heroes together!
