One year into We Are of One Blood project: more than 30 partners and 50,000 saved lives

The We Are of One Blood social project initiated by FUIB has not stopped for a single day. Over the year of existence, the initiative has already raised UAH 4,300,000 for 49 blood deliveries (one delivery saves up to a thousand lives) and more than 2,700 tactical medicine supplies. The project carries on with its mission in partnership with DonorUA, Blood Agents, and Hospitallers CSOs to save the lives

of those who defend our country in the flashpoints.

The project already has more than 30 partners, including illustrators, brands, shops, exhibition organisers and even a football club. The initiative's support for Ukrainian businesses, craftsmen, and artists has reached UAH 10 million over the year.
