PUMB donates UAH 2.5 million to Serhiy Prytula's fundraising drive for 100 drones

FUIB has joined the fundraising drive of Serhiy Prytula Hunt Down the Enemy Everywhere. The bank donated UAH 2.5 million for at least 100 drones to enhance our air forces. FPV drones are successfully used for military purposes. This is a high-precision means of destroying the enemy's manpower and equipment, while also providing the ability to hit vulnerable parts of equipment and fly into the trench shelters and dugouts. UAVs help save lives of our defenders.

The goal of the fundraising campaign is to raise UAH 101.6 million for 7 EOS UAVs, 1,000 FPV drones, 30 IVECO trucks, and 20 speedboats. With this equipment, our soldiers can hunt down the enemy in air, on land and in water.

Since the onset of the war, the bank has already transferred over UAH 93 million to support the Ukrainian Armed Forces, Territorial Defence Forces, the State Emergency Service, the National Police, the National Guard, the Main Intelligence

Directorate, and the Security Service of Ukraine. The funds were used to purchase bulletproof vests, helmets, gas masks, thermal imagers, tactic army backpacks, protective clothing and footwear, UAVs, vehicles, medicines, and fuel.

Bringing the victory closer together!
