

24 March

The Heart of Azovstal project is to present the detailed overview of its focus areas at 11 o'clock on 3 April in Kyiv

The venue will be made known 24h in advance for security reasons.

The project manager **Ksenia Sukhova** will give a detailed presentation of six key programmes implemented under the Heart of Azovstal project:

- Heart of Azovstal: Health — how we care about Mariupol defenders: prosthetic treatment and rehabilitation;
- Heart of Azovstal: Return — how we will help families of POWs release them from captivity and how we will help those who return from captivity;
- Heart of Azovstal: Family — how we help families of Mariupol defenders;
- the targeted assistance we have provided as part of Heart of Azovstal: Sport, Heart of Azovstal: Future, and Heart of Azovstal: Legal Assistance programmes.

We will also introduce our experts, partner organisations, and advisers.

For media accreditation, please email at: odanyluk@gmail.com, or call +38 (050) 314 53 03 (Oksana Danyluk).

We are open to cooperation with international and Ukrainian organisations that take care of the military and families of fallen soldiers, and that have own practices and expertise.

Founded in 2023, the Heart of Azovstal is a project of consistent support provided to Mariupol defenders and their families. Ukrainian businessman Rinat Akhmetov has allocated \$25 million (UAH 1 billion) to the project. The Heart of Azovstal is a part of **Rinat Akhmetov's Steel Front** military initiative providing extensive support to the Ukrainian military.

"I have made a decision to launch the Heart of Azovstal, a project designed to help Mariupol defenders and the families of fallen soldiers. Their acts of bravery are unparalleled in the modern history. It is them, their sacrifice and courage that helped contain the enemy in the first months of the war and let all of us feel the inevitability of the Victory of Ukraine now," **Mr Akhmetov** stressed in his statement.
