## Shakhtar and FUIB to present a collection of charity merchandise

**The football club has joined the social initiative to save the lives of Ukrainian military and civilians.**

Following the initiative of FUIB, FC Shakhtar's partner, the club and the We Are of One Blood social project have joined efforts to release a limited collection of charity merchandise. This collaboration seeks to raise funds for helping save the lives of Ukrainian military and wounded civilians, as well as promote a culture of donation in Ukraine.

The limited collection for those who support FC Shakhtar and await Ukraine's victory will include several stages: first, exclusive bomber jackets will become available, and then additional accessories will go on sale. The project participants will have a chance to meet FC Shakhtar's players. Three winners will be selected from among those who ordered the merchandise, and they will meet the club's players, talk to them, take pictures or even watch the team's training session at their Lviv-based training ground.

FUIB gives half of the money from every order to DonorUA and Blood Agents NGOs to deliver blood components to flashpoints and buy tactical medicine

supplies for Ukrainian soldiers and civilians.
