Zaporizhstal volunteers consistently support the defenders

Zaporizhstal Youth Organisation continues to help the Ukrainian military.

Zaporizhstal youth regularly meets the requests of the military for different kinds of assistance. In course of the full-scale war, the volunteers have been providing the defenders with food, clothing, medicines, camouflage nets and trench candles, dressing supplies, tasty goodies, in particular home-made delicacies, as well as tools, construction materials, etc.

The assistance also reaches their fellow Zaporizhstal employees who are currently serving in the Armed Forces of Ukraine.

In the last three weeks alone, volunteers have delivered essential supplies to these defenders. This support includes 16 camouflage nets, approximately 2.5 tonnes of food and beverages, a dozen first-aid kits, and 80 handmade trench candles, all of which have been provided to soldiers serving in various locations and axes.
